### **Program Goal: To recognize and celebrate excellence in the arts & long-standing contribution to Windsor/Essex**

We are creating two new Arts Leadership Awards (to add to our arts education award and our literary award). Please help us determine what the focus of these new Awards should be. Recipients can include artists, donors, teachers, philanthropists, organizations and businesses.

- Discipline-specific Awards (visual arts, architecture & design, film, music, theatre, etc.)
- Award for Arts Volunteerism
- Award for Business & the Arts
- Award for Cultural Tourism
- Award for Arts in the Community

### **Program Goal: To support the arts infrastructure in the city by granting to arts organizations**

Should these grants be open or designated for a specific purpose? If designated, how?

- Ongoing operating expenses
- audience development
- professional development
- production or creation of new work

### **Program Goal: To support the career development of rising artists and public access to and appreciation of art**

These grants support both young artist development and the advancement of public art through the purchase of a work of art (in any discipline) destined for a public venue.

Should the \$1,000 grants only go to the commission of new works of art? Or can they go to the

cost of the purchase of existing works of art? Please tell us your thoughts.

**Program Goal: To support the career development of rising artists and the development of the art form through mentoring**

These grants go to rising artists who work in the same discipline as the Arts Leadership Award recipients. Please help us determine how these funds should be spent.

- creative development (broad, i.e. undesignated)
- professional development
- for a new work or a work in progress
- for a joint project with the Arts Leadership Award recipient (building on the mentoring theme)
